## Appointment of Club Environment Officer for 2007-8

Following RIBI’s decision to establish a policy on global warming, we are all being encouraged to show leadership in the local community by undertaking a range of projects to make London a better place for residents, now and long into the future. As great organisers, clubs can provide a “hands-on” approach to projects such as energy conservation, raising awareness, educational projects, self sufficiency, recycling, tree planting or cleaning up rivers, canals and ponds. Many clubs have already undertaken exciting projects, working in partnership with schools, councils, charities and community groups.

The RI Board of Directors is conducting a new pilot project beginning 1 July 2007, based on results from the current *New Models Pilot Project* that ends 30 June 2007. The Board would like more supporting data on how allowing clubs flexibility in their meeting frequency affects essential operations.

The “*Meeting Frequency Pilot Project*,” will evaluate the impact of meeting frequency on a club’s ability to sustain and increase membership, implement successful service projects, support The Rotary Foundation, and develop leaders beyond the club level. The new pilot runs from 1 July 2007 to 30 June 2013. A total of 200 clubs, with equal representation from the 34 zones and chartered prior to 30 June 2003, will be chosen to participate. **The deadline for submitting a pilot application form is 1 June 2007.**

**NB.** Please note that the **Rotary Club of Friern Barnet & Whetstone** will not be meeting on Wednesday 20th June.
